l.rizzi1234@gmail.com, <https://www.linkedin.com/in/lucarizzi19/>

Street Isonzo 123/4, Turin (TO), Italy, 10141

Birthdate: 19-06-1999, Phone number: +39 3883243683

EXPERIENCE

ONEDGE-TO3D

Dec 2025 – Current

Mechatronic Engineer

- **Mechanical & mechatronic design:** development of custom mechanical and mechatronic systems from customer request to final product, including CAD design, hands-on prototyping, testing and iteration.
- **Production & 3D printing:** managing the full production process from order to finished part, including SLA/FDM printing, material and support selection, post-processing and packaging.
- **3D printer development:** troubleshooting and upgrading in-house printers, including firmware/software configuration, design and production of custom components.

ONEDGE-TO3D

Nov 2024 – Nov 2025

Junior Mechatronic Engineer

- **3D gel printer (Software redevelopment):** redeveloped the machine software using softPLC and CNC technology, implementing motion, temperature and process control according to client specifications.
- **Vacuum casting machine (Software and mechanical modifications):** redeveloped the control software and mechanical systems, including machine state management, sequencing, process timing and HMI.

EDUCATION

Polytechnic of Turin

Oct 2023 – not completed

MSc in Mechanical Engineering

Projects: Design and Sizing of a Gearmotor | Simulation of a Three-Phase Electric Drive System

Polytechnic of Turin

Oct 2019 – Oct 2023

BSc in Mechanical Engineering

Thesis: Integration of RAMS analysis methodologies with Model-Based Systems Engineering in the aeronautical domain

TECHNICAL SKILLS

Mechanical Design: Solidworks, Inventor, Fusion360

Model making: Scale model construction, Airbrush, CO₂ Laser

Additive Manufacturing: OrcaSlicer, Cura, Chitubox

Electronics & Embedded Systems: Arduino, Teensy, C/C++, Soldering, PCB, Oscilloscope

Automation & Control: PLC, SoftPLC, CNC

PERSONAL PROJECT

Portfolio: <https://luca-rizzi-portfolio.vercel.app/>

- Balsa RC plane
- F4 steering wheel working replica
- Wooden sim-rig
- Custom Lego Wheels

LANGUAGES

Mother tongue: Italian, Familiar in: English (IELTS 7.5)
